CONSTRUCTION FEATURES

When it comes to our process, we have it down to a fine art. Always mindful of keeping the natural appearance of our wood, we reinforce boards, sand them down, and then stain and shade them to obtain the desired color tone giving the furniture a one-of-a-kind appearance. Aiming to bring out wood's natural beauty, our goal has always been the same: when your new dining room centerpiece arrives at your door, that it exceeds your expectations and gives you the same feeling of pride and joy we had in creating it.

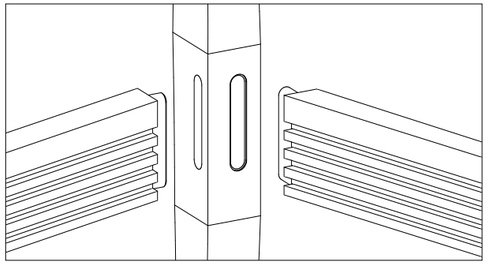

CANADEL'S EXCLUSIVE PROTECTION

Canadel has developed a unique protection made with a catalyzed lacquer base.

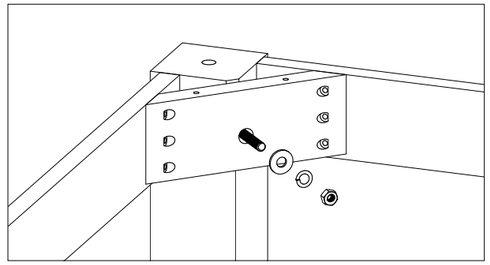

CORNER BLOCKED

All chairs have corner blocks on all four sides—blocks attached with glue and a bolt for a tight joint and added frame strength. They are designed and tested to a capacity of 450 pounds.

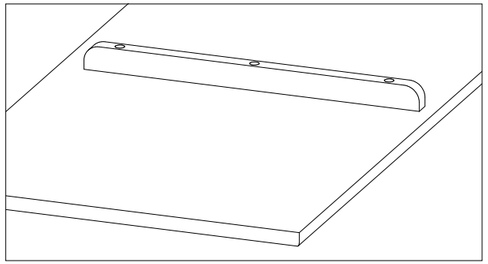

MORTISE AND TENON

The strongest and stable joints. No screws are needed, the chair is assembled with glue.

CORNER LEG BRACING

While each table leg is held firmly in place by a strong corner bolt system, legs can still be easily removed for shipping or moving to another location.

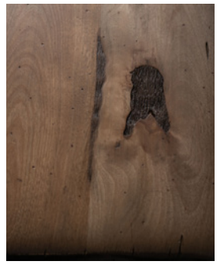

STRETCHER

A straightening bar is placed under the table top and also under the extra leaf to prevent warping.

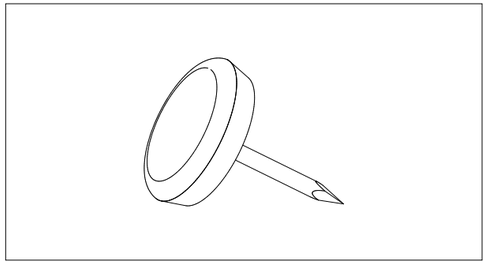

DISTRESS FINISH

The Distressed finish is the one that best highlights the wood's natural appearance. Contours are uneven and marks made with our unique techniques and tools mimic the natural wear-and-tear of wood aged over time.

HERITAGE FINISH

It is exactly the same as the Distressed finish and wood burnishing techniques are applied to the edges.

GLIDE

Teflon glides are used on most of our chairs, stools and benches. They are securely nailed to each leg, make moving furniture around on wooden, ceramic, and even carpeted floors easier, and provide excellent protection.

WHO WE ARE

Canadel is a family-owned company located in North America. After 40 years since its beginning, the company shows no sign of slowing down.
